The biggest of a remote Pacific Island group, located mid-way between the AU and NZ mainlands, Norfolk's incredible array of unique flora and fauna has made it a 'must-see' destination for anyone interested in gardening and wild-life!

The Island is home to the ubiquitous and endemic Norfolk Pine (*Araucaria heterophylla*) as well as 51 endemic plants and 174 natives. The natural beauty on display at every turn astounds arriving visitors – providing countless photographic opportunities of green valleys, lush rainforest, sheer cliff tops and turquoise water sparkling over coral reefs.

We can tailor your holiday with additional tours and activities including: 4WD adventures, Glass-Bottom-Boat trips, progressive dinners, museums, heritage tours and cottage industries.
